Re: Postal Regulations

Dear Postal Regulatory Commission,

I am very unhappy with the service provided by the US Postal Service since Mr De Joy joined the forces. The disruption to the mail for me personally has caused the exceptional service to fall way behind and become an exceptional service. For example the last thing to cause a big issue for me a few weeks back was when my doctor, from a city next to mine, mailed a form for an urgent medical test to be done. Unfortunately it took the mail over one week to go just a few miles. I am a physically handicapped isolated at home person due to Covid and this was a very bad situation that caused extreme duress for me and the doctor.

The previous inflammatory proposals by Mr De Joy were very bad but the latest are even the worst. To be closing even more post offices, cut more additional hours, remove more additional postal boxes is a slap in the face to all us consumers and people who have limited mobility and need the postal services for medication, checks and needed personal items including mail from family and friends to isolated areas.

We need the exceptional service we enjoyed before the De Joy wild card to be returned immediately! Mr De Joy needs to return to his own companies and not attempt to close off the exceptional wonderful US Mail Service we have enjoyed for so many years before he came along. I am not the only one who feels this way many of my neighbors and friends have the exact same feelings about Mr De Joy's choices to destroy the US Post Office. Please assist all the people of the USA and abroad.

Thank you in advance for your speedy return of our postal delivery service.

Yours truly,

Carole Solis
